How to apply for Early Results

We can send a copy of a candidate's academic results directly to a university outside of the UK from the official results date before the certificate has been issued.

This is a service to provide official evidence of results before the certificate has been issued and is not instead of a certificate.

The document will be a Candidate Statement of Provisional Results (CSPR) which will list your qualification grades at the time of us processing your application.

Pearson will provide the results as they are on our systems at the time of processing. Results are **provisional** until certificates are issued and this will be stated on the cover letter which will be provided with the CSPR. If there is a review of marking and grades subsequently change, it will be the applicant's responsibility to let the university know.

Before you begin, we advise making your application on a Desktop PC or laptop, not a handheld device such as a mobile phone or tablet.

Please do not use any special characters or symbols.

It is important that you check with your centre that we are the awarding body for your results.
