Area type: Town

Studied: T Level
in Accounting

EAST SUSSEX COLLEGE

How do you think studying a T Level has helped you?

Studying a T-level has helped me in a variety of ways, for example being able to go out and complete work experience, this hasn't only improved my social skills it has improved my knowledge in various areas too. Furthermore, I had the amazing opportunity to join a business and become a part of the team.

Can you describe your T Level experience?

My T-level experience was full of different opportunities and allowed me to understand multiple job roles within accounting. Over the course of my T Level I was shown many different areas within accounting, and had the opportunity to dive deeper within those during my work experience.

How is studying a T Level preparing you for the career you would like to go into?

Studying a T Level allows you to gain the knowledge and understanding of your job role whilst gaining the experience with the on-the-job experience. This course has opened many doors for my career and has allowed me to move on to my Level 4 AAT apprenticeship with the workplace I had completed my experience with.

Would you recommend taking a T Level?

I would recommend taking the course if you enjoy learning and being able to use your understanding in the real world environment. This course allows you to get the best of both worlds.

How would you say your confidence has changed since taking a T Level?

My confidence has significantly improved over the duration of this course as this course has allowed me to step outside the classroom and increase my confidence with face-to-face contact with other members of staff. As well as this my team building skills have improved massively too.

My T Level was an amazing experience, where I could get the best of both worlds; working in an active business, whilst learning at college in a school environment.
