

# T LEVEL

## Technical Qualification in Accounting

*Jenson Davies*  
**LEARNER CASE STUDY**

**Provider** East Sussex College

**Location:** Eastbourne

**Area type:** Town

**Studied:** T Level  
in Accounting

 **EAST SUSSEX COLLEGE**

### **How do you think studying a T Level has helped you?**

I believe a T level has helped me mostly through the 45-day placement in which we had to go out and experience what the day-to-day role of an accountant would be. It helped me appreciate the type of work and people who I would be working with. I have grown more confident in knowing I can handle the requirements of what it would take to be a successful employee as an accountant, alongside communicating effectively to help efficiency.

### **Can you describe your T Level experience?**

My experience was very positive, with great classroom topics and teaching which helped me mature and improve greatly my understanding of business and accounting.

### **Why did you choose to study a T Level?**

I thought the T Level would be a good level of difficulty in a topic I wanted to choose instead of doing accounting as an A-level alongside other courses I wasn't as interested in. The more in-depth knowledge I gained in comparison to other qualifications, was more interesting to me and something I could then put into action at my work placement.

### **What work experience did you gain on the course?**

I spent valuable work experience time at two professional firms which helped me gain experience in what scenarios occur and the type of work different employees carry out in an accounting firm.

### **How would you sum up your T Level experience?**

Overall, my T level experience was very positive, and I really enjoyed my time and the learning and teaching.

**What career would you like to pursue?**

I can see myself working in an office type environment, so the work experience at two professional firms helped me gain experience and helped me understand what it would be like to work in an accounting department. I am now looking to work in the sports industry in the financial and business side of operations once I complete University.

*I would recommend a T Level as it has a great balance of studying and on-the-job learning.*

**Progression pathways for learners**

GCSEs
