

## MUHAMMAD ALI

### Pearson BTEC Level 5 HND in **Business Studies**

SCHOOL / CENTRE NAME:

**CSPS,  
Peshawar**

COUNTRY:

**PAKISTAN**

### **Tell us about the BTEC qualifications you teach and how long you have been teaching them for?**

I am currently teaching BTEC level 5 and level 7 students. I have been teaching BTEC since 2014 at a CONFED School for Professional Studies, Peshawar, Pakistan. The students that I have taught so far come from diverse backgrounds from the North West region of Pakistan.

### **How does teaching a BTEC compare to other qualifications you have taught?**

BTEC style of teaching demands up to date learning and literature understanding. Critical thinking and reading around modern literature is a must for a BTEC tutor. Unlike paper based evaluation where rote learning prevails, BTEC students are encouraged to prepare their answers by going through various sources. This builds their reading habits and gives them a real understanding of the module.

### **Why do you think students engage so well with the BTEC style of learning?**

The BTEC style of learning is engaging in nature, for getting quality grades, class participation and group work matter just as much as submitting their tasks properly and on time. This keeps students constantly on their toes. They remain proactive whilst also driving competition against other groups.

### **Would you recommend BTECs to other students and teachers? If you would, why would you?**

I would strongly recommend the BTEC style of teaching to other teachers and students. BTEC constantly updates its requirements, answers submitted by students vary widely as there is no definite answer for a given task. For students who want to pursue higher education BTEC courses are a great stepping stone. Learners can build their research skills at an early age. Further, the BTEC method of evaluation encourages critical thinking, which is a must trait in the current competitive academic environment.
