

CHAUDARY ELAHI

Pearson BTEC Level 5 HND in Business Studies

SCHOOL / CENTRE NAME:

**CSPS,
Peshawar**

COUNTRY WHERE STUDIED:

PAKISTAN

Why did you choose to enrol onto your BTEC qualification?

I chose a BTEC HND qualification because I wanted a quality education which allowed me to pursue my dreams of completing the rest of my higher education in the U.K.

What experience and knowledge have you gained as a result of studying your BTEC qualification?

The best thing about a BTEC HND level 5 qualification is that the assignments are of a practical nature. Students are judged after they complete their work on written assignments. I was lucky to have teachers who gave us practical tasks. It helped me to interact with the industry on a local level.

Tell us about what you are doing now and how you feel your BTEC helped you get there?

Currently I am enrolled in the final year of my bachelor studies at Northumbria University, Newcastle. It is due to the BTEC HND qualification that I was able to get admission onto the final year of studies in Newcastle, U.K.

Would you recommend taking a BTEC HND to others? If you would, why would you?

I will certainly recommend BTEC qualification to others. Unlike the traditional paper based examination systems, BTEC assignments are of a practical nature. It keeps the interest of students alive and makes students aware of the business and industry environment at a young age. As part of my assignment, I worked with a local bank to understand how it implements quality improvement initiatives. Without the BTEC HND format I could never have understood the workings of a bank at such a young age.
