Boost achievement with BTEC

We've designed our new BTEC Entry Level and Level 1 qualifications to help you:

- capture learner interest
- boost achievement, and
- increase course retention rates.

These **highly motivating, practical qualifications** offer you a flexible way to deliver courses designed precisely around the needs and aspirations of your learners.

BTEC works for below Level 2

These new qualifications are designed to give your learners the opportunity to **show what they can do** not purely what they know.

- All **units are skills-based** and taught within a vocational context.
- **Grading for Entry Level 3 and Level 1** means learners are motivated by their own progress and you have a clearer idea of when they are ready to move on.
- **Entry Level 1 and 2 Pre-vocational qualifications** offer your learners a way to develop the essential personal and social skills they will need to progress to independent living, future employment or further study.

The graded approach to teaching below Level 2 learners is proving to be a great success.

Here's just some of the feedback we've received so far. . .

"Retention was over 90% for all pathways and many achieved 100%."

Mid Kent College

"Learners progressing to Level 2 provision have had much more success in terms of retention and achievement."
