Introduction to BTEC Tech Awards (2022)	p2
How BTEC Tech Awards (2022) are awarded	p3
Setting grade boundaries	p5
Term-time checkpoint deadlines and key dates	p6
Appeals and further support	p7

Introduction to **BTEC Tech Awards (2022)**

The BTEC Tech Awards (2022) were redeveloped and designed to meet the Department for Education's latest requirements for Key Stage 4 performance tables in England.

They are broad, high-quality Level 1/ Level 2 qualifications in non EBacc subjects, designed for Key Stage 4 Learners in schools to study alongside GCSEs.

Designed to equip students with applied knowledge not normally acquired through GCSEs, giving them a taste of a particular sector, sector-specific and transferable skills, and the confidence to take their next steps.

How BTEC qualification grades are awarded

These qualifications are made up of 60% internally assessed components, which are assessed by you and externally moderated and awarded by Pearson. External assessed components (40% of the qualification) are set, marked, and awarded by Pearson. To award a qualification result, the following stages must be completed:

The diagram below shows an example of a learner completing a BTEC Tech Award (2022)¹, the components making up the qualification, the support available and the key milestone dates:

A learner's best results for their internally assessment components are used to award their qualification grade. Only the result from the externally assessed component, which is sat in the series in which certification is requested, is used to award their qualification grade. This is the case even if there is a better result from a previous series.

→ [Read more about certification options](#)

¹BTEC Tech Award (2022) Art & Design only has two components.

Terminal Rule and resits

The terminal assessment rule requires learners to take the external assessment at the end of their qualification (the series in which the learner certificates). This means that learners must sit internal component assessments either prior to or in the same series as the external assessment to fulfil this terminal rule.

If a learner chooses to retake an internal assessment in a series after they sat the terminal external assessment, they will also need to resit the external component to satisfy the terminal rule.

Learners are allowed one retake of each internal component, and one resit of the external assessment within the programme.

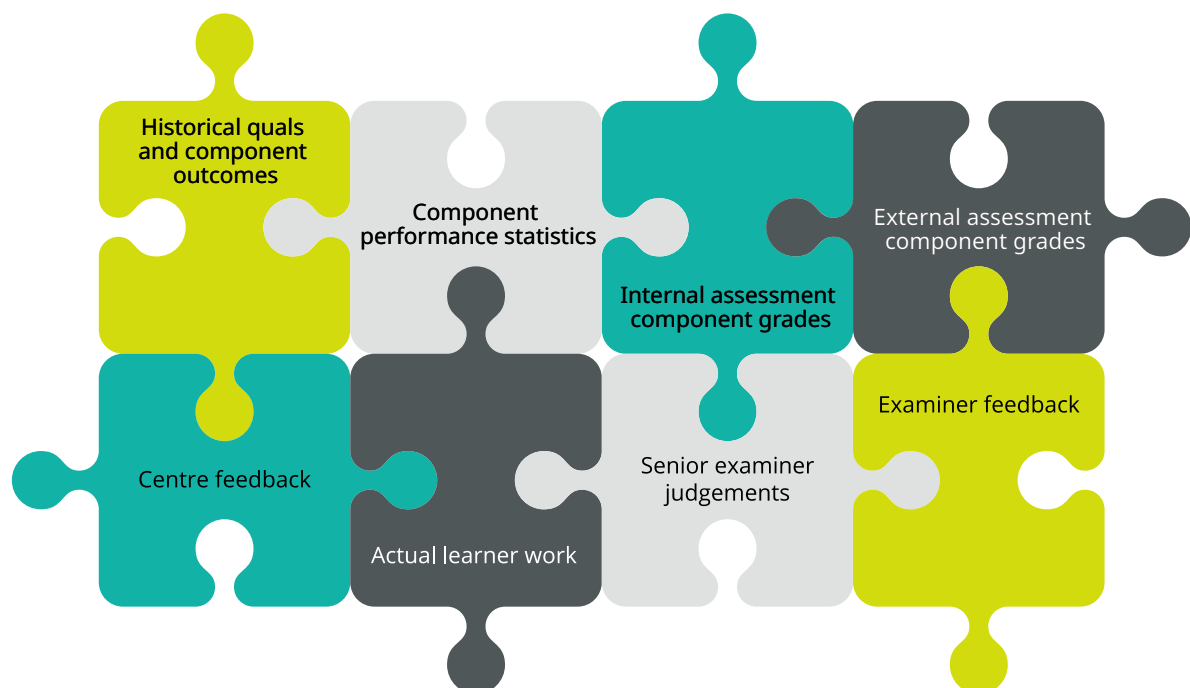

How we set Grade Boundaries for Assessments in Summer 2025

A group of subject and technical experts set grade boundaries (the number of marks needed to achieve a certain grade) after each assessment has taken place. They review a range of evidence to make sure there is fairness, validity and robustness in the grade boundaries recommended. Just as for A levels and GCSEs, we use qualitative and quantitative information to guide us in how we set grade boundaries. Types of evidence subject experts look at includes

Term-time checkpoint deadlines and key dates

This year we have worked in partnership with schools to meet three term-time checkpoint deadlines for these in scope qualifications.

Checkpoint 1 | 31 January cohort confirmation

The latest date by which a cohort confirmation is signed by schools, declaring which students should expect to receive a result in August.

Checkpoint 2 | 2 May cohort reconfirmation

The latest date by which a final cohort confirmation is signed by schools and colleges following any changes, declaring which students should expect to review a result in August.

Checkpoint 3 | 5 July BTEC claiming deadline

The latest date by which schools and colleges should submit a full award claim and internally assessed grades to allow Pearson to issue results in August.

→ [Read more about term-time checkpoint deadlines](#)

Key dates

This year, the key dates relating to the issuing of results are as follows:

5 July	Tech Award certification claim deadline You must have made a certification claim before 5 July for all learners who are expecting to receive a result in August 2023. If you haven't, we will be unable to guarantee your learners will receive a result in August.
15 August	Release of BTEC Tech Award (2022) results to centres under embargo
21 August	BTEC Tech Award (2022) results issued to students

Appeals and further support

Appeals

For BTEC Tech Award (2022) results for external assessments, the appeals process that is detailed in the [JCQ Guide to Awarding Bodies' Appeal Processes](#) will apply. We've also created an Appeals Decision Tree to help guide you.

Further support

For the latest information on results, please visit our [Teaching, Learning and Assessment support page](#), or you can [contact us](#).
