

BTEC Tech Awards

How does the grading work?

A BTEC Tech Award is made up of three components, two of which are internally assessed via assignments which are set, marked and verified in your school, and one which is externally assessed.

How is the grade calculated?

- Step 1:** Students achieve a grade for each component, which is then allocated a number of points.
- Step 2:** At the end of the course, the points from each component are added up to give a total number of points.
- Step 3:** The total number of points is matched against the grade thresholds for the qualification.

Did you know...?

The new BTEC Tech Awards are graded across levels 1 and 2, so every student's achievement is recognised
