

Quick Guide to the BTEC Tech Award in Performing Arts (2022)

REDEVELOPED FOR 2022

For first teaching in September 2022, this qualification has been redeveloped to meet the new DfE technical requirements, particularly regarding the assessment of Tech Awards. The content and structure are very similar to the previous qualification, with only a few changes made to increase clarity and enhance delivery, so teachers of the current specification will find it easy to transition.

Course level: Level 1/ Level 2

Course size: Total Qualification Time: 150 hours/ Total Guided Learning Hours: 120

QN: 603/7054/3

Content Overview

Component 1: Exploring the Performing Arts

Learners will develop their understanding of the performing arts by examining the work of performing arts professionals and the processes used to create performance.

Component 2: Developing Skills and Techniques in the Performing Arts

Learners will develop their performing arts skills and techniques through the reproduction of acting, dance and/or musical theatre repertoire as performers or designers.

Component 3: Responding to a Brief

Learners will be given the opportunity to work as part of a group to contribute to a workshop performance as either a performer or a designer in response to a brief and stimulus.

Why choose a BTEC Tech Award in Performing Arts?

This qualification is for learners interested in taking a hands-on course alongside their GCSEs that will offer them an insight into what it is like to work in the performing arts sector. This course enables learners to develop the foundational skills that are integral to a wide range of roles (from performing to designing and directing) across the creative industries, including film and television, theatre, games, and advertising. Learners will receive a general introduction to the sector, crammed with opportunities to learn and try out new skills, techniques, and styles, allowing them to make an informed decision about their future learning and career.

Through this course, learners will acquire sector-specific applied knowledge and skills through vocational contexts by studying professionals' work and processes used, the skills and techniques used in different roles, and how to contribute to the creation of a performance in either a performance or non-performance role. Learners will also have the opportunity to develop their own technical, practical and interpretative skills through workshops and classes, and to apply them in the internal and external assessments. In addition, learners will develop transferable and employability skills such as responding to a brief, self-development, planning, time management and communication.

As a creative subject with a focus on application, there is no written exam. All components, including the externally assessed synoptic component, are assessed through engaging, open, and flexible set tasks, designed to give learners as much freedom as possible in how they respond, allowing them to work to their own strengths and interests, and to focus on the area of the performing arts sector that most excites and appeals to them.

This Tech Award complements the learning in GCSE programmes such as GCSE Drama and GCSE Dance by broadening experience and skills participation in different types of performance activities, with the opportunity to practically apply knowledge and skills through project work, such as developing ideas and performing for specific audiences. It is a great stepping-stone into further vocational or academic study in the Performing Arts sector.

100% practical with
no written exams!

Assessment Overview

Component	GLH	Qualification Weighting	Marks available	Type of assessment	Length of Assessment	Availability
Component 1: Exploring the Performing Arts	36	30%	60	Internal assessment (PSA*) with 2 tasks. Externally moderated	12 hours of supervised sessions	Twice a year: September release for December/January moderation (from 2023) December release for May/June moderation (from 2023)
Component 2: Developing Skills and Techniques in the Performing Arts	36	30%	60	Internal assessment (PSA*) with 3 tasks. Externally moderated	15 hours of supervised sessions	Twice a year: September release for December/January moderation (from 2023) December release for May/June moderation (from 2023)
Component 3: Responding to a Brief	48	40%	60	External synoptic task. Externally marked	8 hours of for development of work and 3 hours supervised assessment	January release for assessment in May/June (from 2024)

* Pearson Set Assignments (PSAs) are set by Pearson, marked by the centre, and moderated by Pearson.

The components are interrelated and best seen as part of an integrated whole rather than as distinct study areas.

Choosing a **BTEC Tech Award**

Tech Awards are Level 1/Level 2 courses that are of the **same size and rigour as GCSEs**, **widening learners' options at Key Stage 4**, while keeping all their options open for progression into post-16 education and training. We have developed all our Tech Awards **in consultation with subject specialists and secondary school and FE representatives**, to ensure that they are **engaging** and **fully up to date** with current sector skills, behaviours and knowledge.

With a Tech Award your learners will:

- Get a taste of what a sector is like.
- Gain transferable skills and confidence that will help them in the world today and prepare them for their futures.
- Receive an introduction to vocational study.
- Have opportunities to apply learning from their GCSE subjects to every day and work contexts.
- Build applied knowledge and skills that show an aptitude for further learning, both in the sector and more widely.

BTEC Tech Awards come from Pearson, the world's leading learning company. Our mission is to help everyone achieve their potential through learning. We do that by providing high quality content and learning experiences, as well as assessments and qualifications that help people build their skills and grow with the world around them.

Embedding learning through application

Our Tech Award qualifications are designed to help learners:

- **Explore** what it's like to work in the sector and gain the underpinning knowledge and skills required to work in it.
- **Develop** key knowledge, skills and behaviours, and learn about essential tools, techniques, and equipment.
- **Apply** their learning to real-life contexts and vocational scenarios in both learning and assessment.

Designed to **make life easier**

Through the design of all of our qualifications we've sought to ensure that the courses are as easy as possible for teachers to deliver and administer, and that they give learners as much opportunity as possible to realistically demonstrate their capability and achieve overall success.

- ✓ We offer the widest range of Tech Awards, covering 13 unique subject areas, all following the same consistent approach – enabling your school to offer multiple Tech Awards without multiplying complexity.
- ✓ All components are mandatory, with optionality built in within the content where relevant to the sector, streamlining assessment.
- ✓ There is a consistent mark scheme structure for each internally assessed component making it easier to apply and standardise.
- ✓ Assessment is compensatory within components and across the qualification - anywhere learners gain marks, these are added to the total towards a grade. This means grades for each component are no longer restricted to the lowest grade achieved within the component.
- ✓ There are no minimum grade requirements in any component, so an Unclassified result in any of the components will not prevent a learner from achieving the qualification. This gives your learners more opportunities to achieve and better captures their true ability.
- ✓ The moderation process for the new Pearson Set Assignments (internal assessments) will create a significant reduction in administration and paperwork – and includes moderator feedback so that you have the opportunity to address any issues with assessment before they impact on the learner's results.
- ✓ The new Pearson Set Assignments have been based on Authorised Assignment Briefs from current qualifications, so will be familiar to teachers used to the previous qualifications.
