How many marks would you award?

Task 4

Talia wants to buy a kettlebell.

She wants you to compare **two** kettlebells.

The kettlebell requirements:

- weighs 6kg
- costs less than £15.00
- cast iron.

(a) Search the internet to find information about **two** kettlebells using different websites.

Open the file **Kettlebell Information** in the **Task 4** folder. Include your name and task reference on the document.

Save the document in the **Task 4** folder.

Take a screenshot of the kettlebell information from each website.

Paste the screenshots into the **Kettlebell Information** document.

Resave the document in the **Task 4** folder. Do not close it.

(3)

(b) Using the **Kettlebell Information** document, identify the kettlebell that you would recommend to Talia and give **one** reason why you made this choice.

Your answer should be brief (1 or 2 sentences).

Resave the **Kettlebell Information** document and close it.

(1)

Evidence:

- *The **Kettlebell Information** document.*

(Total for Task 4 = 4 marks)

How many marks would you award?

Kettlebell Information

Task 4a

Your screenshots need to show this information:

- Website address
- Product name

Do the kettlebells you have found:

- weigh 6kg?
- cost less than £15.00?
- come in cast iron?

Any information missing in the screenshots must be completed in the table:

	Kettlebell 1	**Kettlebell 2**
Website address		
Product name		
6kg weight	Yes/No	Yes/No
Less than £15.00	Yes/No	Yes/No
Cast iron	Yes/No	Yes/No

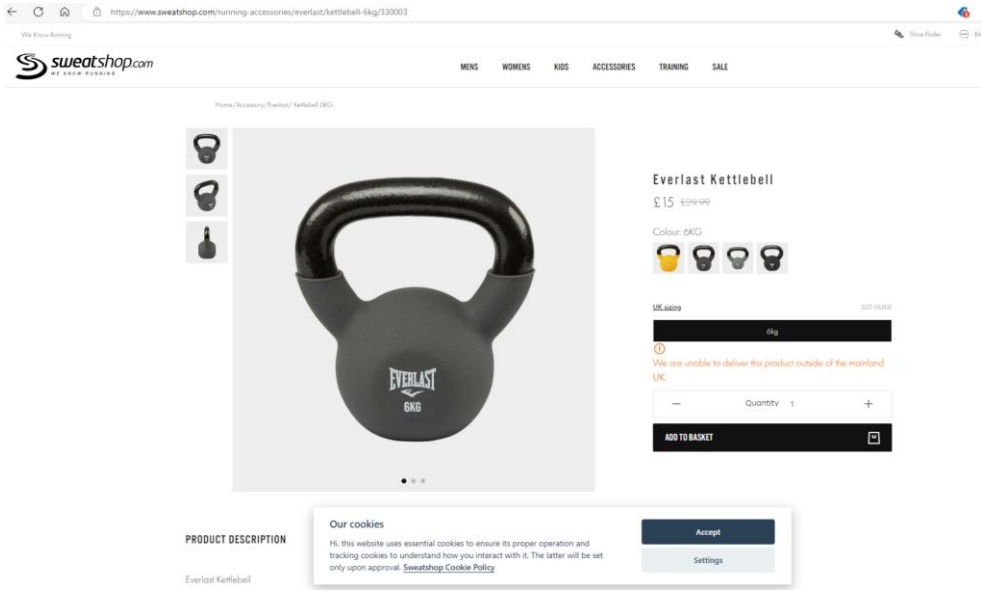

Task 4b

Compare the information you have found on the two kettlebells.

Identify the kettlebell you recommend to Talia and give **one** reason for your choice.

Kettlebell recommended. Screenshot 1
Reason for your choice I think kettlebell from amazon is best offer because it is 6Kg and cost £14.99

How many marks would you award?

Task 4			
a	Evidence shows the kettlebells: • weigh 6kg (1) • cost less than £15.00 (1) • cast iron (1) If the learner achieves 3 marks but the kettlebells are **not** from different websites, only 1 mark can be awarded. If the learner achieves 2 marks or fewer but the kettlebells are **not** from different websites, no marks can be awarded.	3	
b	An appropriate reason given e.g. criteria met, price, extra features (1)	1	

How many marks would you award?

- This learner would get two marks for this answer.
- For Part A they have selected two kettlebells, however only the weight fits the criteria, as screenshot A shows it is not cast iron and screenshot B shows it is not less than £15.
- For Part B they are awarded the mark as they have selected a kettlebell that fits the price criteria.
