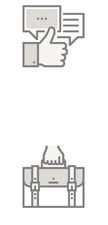
Qualifications update

Financial and Quantitative - Teacher's Delivery Guides



It is important to us here at Pearson that we provide as much advice and support as we can, to aid you in teaching the content to the required standard.

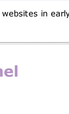
To support centres and teachers further, we are putting together a range of delivery guides to be used by teachers when planning and delivering LCCI lessons.

Why use the Teacher's Delivery Guides?

Subject experts have put together these documents with the specific aim of helping you to plan and deliver great lessons.

The guides have been produced alongside the specifications. By following the examples provided, you can be confident that your lessons meet all the content requirements set out in the specifications – ensuring your learners are well-prepared for their exams.

What is in the Teacher's Delivery Guides?



There will be a document for each of the new Financial and Quantitative qualifications. These guides will contain Schemes of Work, exam command words, further reading lists, advice on delivery, information regarding preparing learners for external exams and an IAS glossary. The full guides will also include practice exercises and answers, so that you can test your learners throughout the course and ensure they have retained the knowledge and developed the skills necessary for success in their assessments.

How do I use the Teacher's Delivery Guides?

The extent to which you utilise the Teacher's Delivery Guides is up to you.

You could:

- take the Schemes of Work as a basis for your own lesson planning and expand upon each lesson to develop your own scheme of work.
- reproduce the reading list and task your learners with making presentations based on key chapters in the texts from the books.
- set small, mock tests using the practice exercises and invite your learners to use the answers to mark each other's work.

Ultimately, the guides have been designed with you in mind and are there to support in a way which works best for you.

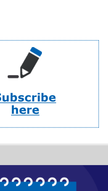
Extracts are now available

We are releasing extracts of the Teacher's Delivery Guides that include the Schemes of Work, the reading list and the exam command words. Extracts are now available for the following qualifications:

- Pearson LCCI Level 2 Certificate in Cost Accounting
- Pearson LCCI Level 3 Certificate in Cost and Management Accounting
- Pearson LCCI Level 4 Certificate in Management Accounting
- Pearson LCCI Level 4 Certificate in Organisational Behaviour and Performance.

The full Teacher's Delivery Guides will be available to download from our websites in early 2016.

Finance and Quantitative online panel



Do you have a view on the current LCCI Level 2 Certificate in Business Calculations, Level 3 Certificate in Advanced Business Calculations or Level 3 Award in Computerised Bookkeeping qualifications? Do you want to be part of their potential redevelopment?

We are enlisting panel members now to get your views on what works with these qualifications; what could be improved; and what is missing. Your views will be collated over the next few weeks, with a view to engage with you again through the panel in early 2016. We will aim to provide feedback on your suggestions and share with you the proposed content for the new qualifications as part of this panel.

To join the LCCI Finance and Quantitative online panel, please click here and complete your details as required.

We look forward to working with you and hearing your views!

Training update

LCCI Financial and Quantitative Online Training event update

We recently held a series of free online events to help centres understand the key changes made to the LCCI Financial and Quantitative specifications and sample assessment materials.

The events were delivered by our subject experts with the aim of engaging our LCCI centre managers, LCCI tutors and those involved with the delivery of the qualifications.

The materials for these events are available on our website for you to view and include the following materials:

Event recording	Specification and Sample Assessment Material	Slide deck of the presentation
Product and marketing flyers	Assessment objectives	Relevant documents bespoke to the qualification

From everyone here at Pearson, we'd like to take this opportunity to wish you a **Happy New Year**.

We look forward to bringing you more exciting developments from LCCI in 2016!
