Reviews of marking and moderation (RoMM) services, which should I choose?

We take the responsibility for issuing accurate students’ results very seriously. There are quality assurance checks at every point in the exam cycle, from recruiting examiners through to setting grade boundaries. However, we know that there may be times when you want reassurance about a grade. In these circumstances, you may request a review of marking or moderation service (RoMM).

If you are from an examination centre and you have questions about your candidates’ results there are different post-results RoMM services you can use, depending on the situation. This guide explains which service to request in the different situations you might face. Please do not forget that marks can go up, stay the same, or go down as a result of these services and student consent must be given.

The RoMM services outlined here are designed to provide reassurance that the results you have are correct.

These can be found on the subject pages of qualifications.pearson.com.
