

## College NEET Programme

This programme, delivered by Norton Radstock College, will be offered to students in "Phase 2". These are 16-19 year olds who are not in any form of training, education or employments (NEETs), and are working predominantly at E3 or L1. The programme will run over two to three days a week with the opportunity for work experience to be included. Students will be registered for 13-24 credits and the SelfSmart diagnostic tool will be used throughout the course to support progression. Funding will be drawn down using the LARA codes for the qualifications aimed for in each area of the Skilled for Life programme.
