

## Who to work for?

Businesses come in lots of different sizes. The size of the business will affect the type of work it is able to do. This is called the **scale** of the business.

What can you tell about the size of the businesses from these vans?

# Activity 2: The size of businesses

Describe two different sized companies. Write about the work they do and how their size affects this. Make sure you explain how they are different.

Company 1	Number of employees?
What work do they do?	
What range of jobs do they do?	

Company 2	Number of employees?
What work do they do?	
What range of jobs do they do?
