

7: Buying a uniform

You are going to measure a colleague for their new uniform.

Activity 7: Measuring someone

Uniform sizes depend on your height from shoulder to ankle.
Can you help to measure a colleague for a uniform?

1 What tool will you use to measure your colleague?

2 What units of measurement will be the best to use?

3 What is your colleagues height from shoulder to ankle?

4 Take your measurements from Question 3. Convert them in the table below.

Millimetres (mm)	Centimetres (cm)	Metres (m)
