

1: In the warehouse

You're doing a stock check. At the start of each week, you need to check what needs to be ordered.

Activity 1: How many do you need?

Can you help the stock controller to order the correct stock?

- 1 How will you work out how many of each item you need to bring stock levels up to the ideal level?

- 2 How many of each item do you need to order?

STOCK ORDER FORM	
ITEM	NUMBER OF STOCK NEEDED
Item A:	
Item B:	
Item C:	

- 3 Item A costs £4.99 each.

- a) Estimate the cost of your order for Item A.

- b) Work out the actual amount you will pay for your Item A order.
