

### 3: Setting up a display table

You are going to display some products at a show. You need to set up a display table.

## Activity 3: What do you need to cover the table?

Choose a table that is suitable for a display. Work out the information you need to cover your table.

1

What is the length of your table?

2

What is the width of your table?

3

You need to cover your table with a cloth. What is the minimum area the cloth must cover?

4

You are going to hold the cloth in place with sticky tape. What length of tape do you need to go around the edges of your table?
