

Edexcel International Advanced Levels

Designed for the global learner

Edexcel International Advanced Levels have been developed to the same high standards as Edexcel GCE A Levels for the unique needs of the global learner.

www.edexcel.com/ial

Key features

- Flexible, modular structure.
- January and June examinations to support students wishing to progress to local and international universities.
- AS qualifications can be taken as stand-alone qualifications or used as a stage on the way to completing an Advanced Level. AS represents 50% of an Advanced Level.
- 100% examination with no coursework.
- Recognised internationally by leading universities.
- Specifications can be delivered in an international context to fully equip the global learner.

**Accounting / Biology / Business Studies / Chemistry /
Economics / English Language / English Literature /
History / Law / Mathematics / Physics / Psychology**

Edexcel International Advanced Levels are available in the following subjects:

Accounting

Edexcel International Advanced Level in Accounting develops students' knowledge and understanding of the principles, concepts and techniques of accounting. The specification lays a secure foundation for the future study of accounting or related subjects.

Economics

Edexcel International Advanced Level in Economics will empower learners to think as economists, looking at the sector's contribution to our understanding of society and learning to apply a range of key economic concepts to both national and international contexts.

Mathematics

With a focus on problem solving, rigorous mathematical arguments, logical deduction and the manipulation of mathematical expressions, Edexcel International Advanced Level in Mathematics fully equips students with the knowledge and skills required for further study in mathematics, or related subjects.

Biology

Edexcel International Advanced Level in Biology builds on the knowledge and skills developed from International GCSE/GCSE, encouraging creative thinking and problem solving.

English Language

Edexcel International Advanced Level in English Language presents English Language in a global context, including the influence of other languages on the development of English.

Physics

Edexcel International Advanced Level in Physics specification builds on the knowledge and skills developed from International GCSE/GCSE in Physics. The specification develops an understanding of the link between theory and experiment.

Business Studies

Edexcel International Advanced Level in Business Studies will enable learners to gain a holistic understanding of business and develop a range of relevant skills, including decision making, problem solving, challenging assumptions and quantifying and managing information.

English Literature

Students undertaking Edexcel International Advanced Level in English Literature will study a range of classic texts, poetry and prose, together with a range of texts with wide international appeal.

Psychology

Edexcel International Advanced Level in Psychology enables students to develop an understanding of social and cognitive psychology, biological psychology, learning theories and development, applications of psychology and clinical psychology, and psychological skills.

Chemistry

Edexcel International Advanced Level in Chemistry specification builds on the knowledge and skills developed from International GCSE/GCSE in Chemistry. The specification motivates students and teachers by presenting chemistry in a contemporary context.

History

Students of our Edexcel International Advanced Level in History will study the most popular historical periods and themes, with a greater emphasis on international history.

Law

Edexcel International Advanced Level in Law aims to develop students' knowledge and understanding of legal rules and institutions, as well as an appreciation of the function of law in society. Students will learn to apply analytical and critical thinking as part of this course.

NEW subjects for first teaching from September 2016

Applied ICT, Arabic, French, Geography, German, Greek and Spanish
